## *The pride of France...*

Worldwide, **BATIMAT** belongs to the most important construction fairs. For more than 40 years now, the latest novelties in the field of building and renovation can be seen at this fair. The 23rd edition of this fair takes place from the 5th till the 10th of November 2001 in the 'Paris Expo halls' in Paris, situated nearby the Porte de Versailles.

This year **EUROPOWER** has its own booth. It is certainly worthwhile to visit us (Hall 5.2, M33). At our stand we will show you our latest developments.

We have about 200 free entrance cards. Just ask for it and we will send you some!

DE LA CONSTRUCTION 2001

### OUR YOUNGEST...

We are pleased to introduce our new Hatz super-silenced generator. It is equipped with a Hatz 1B40 engine, in a 1 x 230V and a 3 x 400V version. Also the 60 Hz version is already available!

This diesel generator with an air-cooled engine in a very silent version, has been developed at the demand of our **EUROPOWER** dealers.

Of course, we have kept the assets of our range of super-silenced generators with Honda gasoline engine: easy to use and to maintain, silent and safe.

Furthermore, our youngest can be adapted to the specific demands of the user.

Today's customer rightly wants a custom made generator.

For more information, please visit our website:

[www.europowergenerators.com](http://www.europowergenerators.com), section 'NEW'.

Of course, you are always welcome to ask for more information by phone, fax or email.

New European directive on the permitted sound level: make sure that you are up-to-date and [click here](#)

For **EUROPOWER** it is important that our dealers have confidence in what they offer.

Our experience has taught us that the turnover increases as the knowledge and the competence of the sales and service staff improve. The better your staff is acquainted with the whole product range, the differences between engines, the sound level and so on, the better they can offer the right product for the right application.

Therefore we continue to stress the importance of training. These dealer training programs are still organised every 3rd Thursday of each month. If you or your employees are interested in attending a training, please complete the fax underneath and return it to **+32.11.582838**.

You can also send an email to [info@europowergenerators.com](mailto:info@europowergenerators.com). Of course you can choose yourself which month suits you best. If these third Thursdays are not convenient for you, please contact us so that we can arrange a training session on another date.
