Dozens of new products at IRE

Written by Patrick Hill - 20 May 2008

Ausa's new Taurulift T 204 H compact telehandler is put through its paces at the recent SED exhibition in the UK.

Visitors to the International Rental Exhibition (IRE) - taking place at the Amsterdam RAI exhibition centre on 3-5 June - will see dozens of new products targeted at rental companies. Here is a selection from almost 50 of the 140 exhibitors at the show.

Alimak Hek

Alimak Hek will feature the new HEK Modular System range of mast climbing work and transport platforms and the high-speed Alimak Scando 650 FC-S hoist.

AI-VAC

The Mantis is a small, one-man operated, battery-powered mobile lifter, which offers great flexibility of use because of

no need for fuel or power cable.

Europower Generators

Europower says its New Boy range of compact generator sets offer excellent price/quality ratios, allowing rental companies to select from many options to build upon a basic version. Options include: custom colour, remote control, auto start/stop, trailer mounting, and bigger fuel tank. The line has Kubota engines and offers a range of features to reduce maintenance.
