

Europower Generators' EPS133TDE New Boy has an output of 13 kVA and a 69 dB(A) at 7 m noise rating.

Europower Generators in Belgium has expanded its New Boy super-silenced line with the 13 kVA maximum output EPS133TDE model. Powered by a 14.5 kW Kubota engine, it is the same size - 138 x 64 x 68 mm - as the previously most powerful 11 kVA model. The 360 kg EPS133TDE has a noise level of 69 dB(A) at 7 m at 75% load, and it will run for 5.5 hours at full power on a tank of fuel.
